## Cloud Technology Services for all Business Sizes

**Reintivity Enterprise** A custom approach to identifying the services, resources, planning and implementation needed for a scaled business.

**Reintivity Essentials** A collection of services designed for evolving businesses, like startups, one person firms, small & medium sized firms.

# Know Your Game

With Reintivity, you'll always have a clear game plan and actionable insights. Leverage IT best practice methodologies across all aspects of your digital organization with key activities, goals and milestones that are specific to you.

Red – High Risk

Yellow – Medium Risk

Green – Low Risk

## Project Consulting

## Managed Services

## Talent Sourcing

## Capabilities

**Know When to Act** Knowing where you are allows us to assess and mitigate the highest risks and can work with you to proactively take action when it's right for you.

**VCIO Insight** Our VCIOs utilize the information in Reintivity to help you answer why. Their insight provides a powerful perspective on your overall IT health. Often times simple changes can provide powerful results.

### A Roadmap Based on Your Operations

Know how your technology decisions integrate into your business -- now and in the future. By analyzing your needs, challenges, and goals over time, we'll help you navigate and plan through any cloud technology challenge.

### Digital Inventory Management

Manage assets, network inventory,, subscriptions, renewals, and more all in one place.

**Focused on Success** Define, manage, and measure your methodology for driving IT success by leveraging industry best practices.

### Innovation Backed by Strategy

Not only will you have a plan to evolve your digital business, you'll know how you'll get a return on your investment.

**REINVENT  
PRODUCTIVITY**
