

Unique threat intelligence

Let us help you migrate your workloads to Microsoft Azure

Security remains a top priority for organizations today.

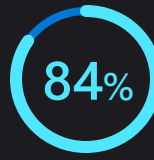

73% of surveyed organizations cite compliance as a top cloud challenge.¹

>80% of security incidents can be traced to missing modern security approaches.²

60% of surveyed ransomware attack victims did not invest in security information and event management (SIEM) technology.²

84% of impacted organizations did not integrate their multi-cloud environments into their security operations tooling.²

As an experienced Microsoft Partner, we can implement industry-standard security practices and ensure compliance with relevant regulations, safeguarding your sensitive information in Azure.

Azure: Unmatched security

Azure provides industry-leading comprehensive, multilayered security from chip to cloud without disruptions. We can help you customize the right plan for adopting the cloud on your terms.

Best-in-class threat intelligence

50%

Reduction in time to remediate threats³

Unification of security tools and vendors

30%

Reduction in time spent on security & compliance³

Significant cost savings

219%

Azure Security Center Return on investment over three years⁴

A comprehensive and unified security platform

Microsoft Defender for Cloud

Protect cloud and hybrid environments with comprehensive security

Code-to-cloud protection across multicloud and hybrid environments

- Broad workload security coverage
- Contextual threat analysis
- Recommendations to improve cloud security posture
- Infrastructure as code security

Azure security offers protective products and services

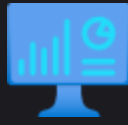

Microsoft Sentinel

AI-driven SIEM² for proactive threat detection, investigation, and response

Azure Network Security

Cloud-native network security based on Zero Trust

Confidential Computing

Sensitive data protection in use in memory

Microsoft Purview

Data protection across platforms, apps, and clouds

GitHub Advanced Security

Integration with features that secure app code and dependencies with GitHub

Global cybersecurity

3,500

experts working together to safeguard data in Azure

Built in compliance to fit evolving needs

100+

compliance certifications – the most in the industry

Commitment to security

\$20B

Microsoft investment in security in the next 5 years

Contact us and let's set up a meeting to discuss how we can improve your security posture.
